Gwinnett

Gwinnett County is sponsoring a FREE water education unit to 6th grade teachers and students in our community. The unit includes lessons designed to teach students about water and provide the foundational knowledge for a lifetime of responsible water use. The unit includes a distance learning integration while supporting AKS.

## Educator INFORMATION

- This initiative is funded by **Gwinnett County** so it is available at NO COST!
- The unit supports science, math & language arts AKS.
- Available to 6th graders.
- Teachers can earn a \$50 mini grant for classroom use.
- Each lesson was designed by a classroom teacher to support current curriculum and to be easily integrated into lesson plans.
- Lessons are simply formatted and designed to be easily taught by the classroom teacher without any additional training needed.
- Each lesson is supported by a two minute on-demand video teaching tutorial.
- Teachers and students receive access to our on-line web-app. Participants can access **distance learning resources**, student lessons, on-demand teaching tutorial videos, downloadable classroom presentations for each lesson, contests and much more etc.
- There are five classroom lessons that range from 20 minutes to 35 minutes
- Lessons can be taught at your own pace. Teach over a semester or over a week, it's up to you.

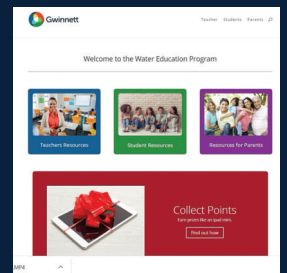

“The unit aligned smoothly with the science and language arts standards that we are required to teach.”

Kelly Johnson, Teacher  
Bud Rank Elementary School

## Distance LEARNING

Digital lessons developed to be easy to assign. Students are provided access to our web-app that contains lessons structured as digital independent student driven lessons.

## Teaching MATERIALS

- Printed Teacher Book
- Unique login credentials to access on-line resources
  - Lessons (with distance learning integration)
  - On-demand video teaching tutorials for each lesson
  - Digital letter to parents about the Program
  - Assessments
  - Postage Paid Reply Envelope
  - Additional teaching resources

## Student CONTESTS

As students complete activities they are assigned points that are displayed on a leaderboard. At the conclusion of the unit, the top students are awarded a iPad Mini or FitBit Charge.
